

Pravesh Kumar

Java Full Stack Developer

Banka, Bihar, India • +91-9128521727 • praveshkumar5502@gmail.com

[LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Professional Summary

Result-oriented Java Full Stack Developer skilled in designing and deploying end-to-end web applications. Proficient in Backend Development (Spring Boot, Microservices, PostgreSQL, REST APIs) and Frontend Development (ReactJS, Vite). Delivered 4+ live enterprise-scale projects emphasizing clean code practices, performance optimization, and effective Agile collaboration.

Work Experience

Java Full Stack Development Trainee — JSpider, Hyderabad (On-site)

Jun 2025 – Present

- Developed 10+ full-stack mini-projects focusing on Core Java, JDBC, Hibernate, Spring Boot, and REST API Development.
- Implemented complete frontend-backend integration using ReactJS and Spring Boot, reducing data fetch latency by 15% through optimized SQL queries.

Backend Development Intern — Robowaves (Remote)

Oct 2025 – Dec 2025

- Developed 15+ secure RESTful APIs using Java and Spring Boot, improving data processing efficiency and reducing API response time by 25%.
- Implemented MVC architecture, CRUD operations, and JWT authentication mechanisms for 3 major backend application modules.
- Collaborated in Agile/sprint workflows, utilizing Git version control and Postman to achieve 95% API test coverage.

Education

Bachelor of Technology (B.Tech) — Bihar Engineering University, Patna

2022 – 2025

GPA: 8.16/10

Diploma in Computer Science Engineering — Govt. Polytechnic Munger

2019 – 2022

GPA: 8.25/10

Projects

Go-Easy – Premium Urban Mobility Platform

[Live Portal](#) — [GitHub](#)

React (Vite), Tailwind CSS, Framer Motion, Java Spring Boot, Spring Security (JWT), Neon PostgreSQL, Docker

- Engineered a full-stack ride-hailing solution with a glassmorphic luxury UI, featuring separate high-performance dashboards for Customers (one-tap booking) and Drivers (earnings/status management).
- Implemented a Tiered Pricing Engine for transparent, equitable fare calculation and a Secure Handshake Protocol (OTP-based) to ensure ride safety and protocol integrity.
- Deployed a scalable cloud architecture using Docker on Render (Backend) and Vercel (Frontend), achieving seamless real-time data persistence with Neon Postgres.

SiviOn Global Technologies – Corporate Web Platform

[Live Portal](#) — [GitHub](#)

ReactJS, Node.js, Express.js, MongoDB, REST API, Vite, Vercel

- Built and deployed a full-stack corporate website with dynamic career portals and CMS, serving 500+ monthly visitors.
- Engineered 20+ RESTful APIs for job applications and contact forms, achieving seamless integration between frontend and backend.
- Deployed frontend on Vercel and backend on Render, optimizing asset delivery to reduce page load time by 30%.

Clinixa – Hospital Management System

[Live Portal](#) — [GitHub](#)

Node.js, Express.js, PostgreSQL, ReactJS, Vite, JWT, Razorpay

- Designed a full-stack hospital management system handling 1,000+ mock patient records and appointment booking workflows.
- Implemented role-based access control (RBAC) accommodating 4 user roles (Admin, Doctor, Receptionist, Lab), secured by JWT.
- Integrated Razorpay for seamless billing transactions and Twilio/Nodemailer for OTP verification, increasing workflow efficiency by 40%.

Aapthi Marketing Solutions – IT & Staffing Platform

[Live Portal](#) — [GitHub](#)

ReactJS, Node.js, PostgreSQL (Neon), Tailwind CSS v4, Framer Motion

- Developed a scalable IT staffing platform utilizing ReactJS and Tailwind CSS, improving UI responsiveness across desktop and mobile.
- Migrated data architecture from MySQL to Neon Postgres, enhancing query execution speed and supporting 10,000+ potential connections.

Skills

- Languages:** Java, JavaScript, SQL, HTML5, CSS3
- Frameworks:** Spring Boot, ReactJS, Express.js, Hibernate/JPA, Tailwind CSS
- Databases:** PostgreSQL, MongoDB, MySQL
- Tools:** Git, Postman, Maven, VS Code, Vercel, Render, JWT Auth

Certifications & Achievements

- Certifications:** Backend Development Internship Completion Certification — Robowaves (Dec 2025)
